

SPARKLIKE CARE™

Insulating glass manufacturers want to assure that their production is controlled, and that they deliver the best quality products to customers. The quality operators take regular measurement to check the insulating gas concentration.

The operators need to trust the reading. Therefore, calibrate your Sparklike devices annually in order to have the sense of security of insulating gas concentration and product quality.

GET
SPARKLIKE CARE™ ANNUAL SERVICE
FOR GUARANTEED ACCURACY

- Save on costs
- Gain extended product life
- Obtain reliable gas measurement results
- Plan your calibration needs to fit manufacturing seasonalities

QUALITY MEASUREMENT WITH ANNUAL SPARKLIKE SERVICE

Sparklike CARE™ and Sparklike CARE+™ mean that your Sparklike device™ is controlled and serviced annually by Sparklike Certified Professionals. These two annual service agreement options guarantee that you receive an all-inclusive service to your device. Starting with a pick-up from transport provider FedEx and ending with the delivery of your newly calibrated device that has the wear and tear parts replaced, latest updates along with a calibration certificate.

SPARKLIKE CARE™ FEATURES INCLUDED IN THE YEARLY FEE:

- Maintenance and replacement, if needed, of wear and tear parts
- Calibration and calibration certificate
- Pick-up and return of the device
- Software updates
- Inspection and adjustment of optics
- Quality testing and verification
- Mail reminder of approaching calibration

SPARKLIKE CARE+™ FEATURES INCLUDED IN THE YEARLY FEE:

- The same services as The Sparklike CARE™ as well as a replacement device for the time when own device is being serviced
